

20. (Once Amended) A method for packaging an item for transport in a container among potentially obscuring protective material comprises:

A2 releasably fastening a first end of a tether-based connector to said item; and

anchoring a second end of said connector to said container,

B wherein said method further comprises dispensing a length of tether from said connector.

In The Drawing

Please find the enclosed five sheets of formal drawings for entry in the present application.

Please find the enclosed Terminal Disclaimer along with a check in the amount of \$55.00 to cover the Terminal Disclaimer fee under 37 CFR 1.20(d).

REMARKS

All bases for rejection of the pending claims identified in the Examiner's action have been addressed. Applicant hereby reserves the right to prosecute any canceled claims or other broad claims addressed to the invention through continuing applications.

The changes to the specification are detailed in a marked-up copy in the enclosed Attachment 1.
